

2022 PRESIDENTS' CHALLENGE

WHAT'S BLACK AND WHITE AND ? ALL OVER?

Our challenge to you is to create a work of fiber art that uses ONLY black, white, and ONE color.

1. Your art must be created using materials that are *only black and white*, with one additional color. That color is the artist's choice. . . . But chose carefully because you may only use that one additional color. You may, however, incorporate various tones and values of that additional color.
2. The piece must be 20" x 20" square, with no dangling embellishments. Uniform size is important to achieve the expected impact when displaying the works at the Cincinnati Nature Center ("CNC") exhibit.

Your work of art will be collected prior to the October CNC exhibit.

Be Creative!
